

Nagasaki University WISE Programme

Application Guidance for the Grant for Global Health Research Collaboration

1. Aims

The Nagasaki University WISE Programme for Global Health, Global Health Elite Programme for Building a Healthier World (“the Programme”) is launching a new research funding scheme, the Grant for Global Health Research Collaboration (“the Grant”) with aim to create a new cross-disciplinary research platform. The Grant aims to break down its academic boundaries by inviting researchers from multi-disciplinary fields beyond biomedical sciences.

The Grant will be available for faculty who supervises both master’s degree and/or doctoral students in the Graduate School of Global Humanities and Social Sciences; the Graduate School of economics; the Graduate School of Engineering; the Graduate School of Fisheries and Environmental Sciences and the Graduate School of Education. The Grant primary supports research projects that are closely relevant/appropriate to the field of Global Health. Applications with limited research experience in Global Health are also welcome.

We look forward to receiving applications from all the graduate schools!

2. Financial support

<Amount of the Grant>

- Maximum of JPY500,000 / project (The overall grant’s budget is JPY3,000,000)
(*The allocation of amount will be determined based on the submitted budget plan)

<Financial support period>

- The Grant can be spent from the award date and must be spent in full by 31 Mar 2022.
- The Grant can be spent on expenditures that are required to conduct the research project but must be spend in accordance with the set budget regulations by MEXT.ⁱ
(i.e. equipment, consumables, travel costs, honorarium for research assistant)

3. Eligibility

- Applicant must hold the position at least as an Assistant Professor at Nagasaki University.
- Applicant must be supervising student(s) either at Graduate School of Global Humanities and Social Sciences, the Graduate School of economics, the Graduate School of Engineering or the Graduate School of Fisheries and Environmental Sciences or Graduate School of Education.
- Applicant who can demonstrate and carry out a research project that are relevant/appropriate to the field of Global Health.
